Town Plan Amendment Document progress report. This spring Gerry had sent the final Draft Amended Plan with a cover letter that identified changes.

The next step will be to schedule the document for review on the Town Council agenda.

Public Comment: Carolyn Schafer requests document be available to the public.

Discussion: Document is in the proposal stage- with ample opportunity for community participation during previous P& D meetings. Proposed amendments will be presented at Town Council Meeting.

Process: Melissa requests for plan review to be on the council agenda.

At the Town Council the Proposed Amended Plan becomes a public document for community input. Copies of the amended plan will be available at the meeting. Once the process begins there will be ample time for review, and feedback which includes a public hearing.

Discussion: Aim to present amended Plan at next council meeting July 22, or if not in August, assuming that Mayor and Council wish to the address the matter on that timetable.

Agenda for next and future meetings.

- Revisit March 3 items raised.
- Consider options for more effective way to meet given the pandemic: meet outside, fix the speaker, improve microphone. Brad will offer technical assistance where necessary.
- Check with council on how P&D committee can be more helpful in terms of economic development.

The meeting was adjourned at 8pm.

Minutes respectfully submitted, Laura Monti, Secretary
