

Your Voice Matters
Protecting our water, air, land and wildlife

Community Workshop

Open House

Your voice matters in protecting the places we live, work, and play. We are hosting an interactive workshop to gather your specific concerns and local knowledge to help shape environmental protections

Workshop Topic Focus:

-  Water Quality: Protecting watersheds, aquifers, creek health and addressing mine drainage concerns
-  Air Quality: Managing dust, emissions, visibility and pollutants
-  Soil: Concerns regarding erosion, track out, and future land
-  Biodiversity: Protecting local wildlife habitats and endangered species
-  Nature-based Economy: Prioritizing a sustainable use of natural resources to drive economic growth
